Subject: PSC Website Comments:SCEG rate request

Please, please take a minute or two to consider the rate increase that SCEG is going to ask for. We are having hard enough times making ends meet, Trying to choose between buying milk or medicine and trying to decide to either pay the phone bill or buy gas for our cars. There are a lot of lower, fixed income small , large , senior families here in this state who are at ends now. Its not just the 5 or 10 they ask for, it's the cost of gas, the cost of food, the little amounts the phone, water, and everyone else ask for that's going to be the straw that breaks our backs. Its our mortgages, our doctor bills and everything else. We can't stand any more. We already freeze in winter and roast in summer trying to conserve and the more we do, the more they want! They can double up on people in one truck and leave one sitting to save gas, do without advertising, take less out of state trips for executives..something..but we just can't take anymore, not even a little. Thanks for listening.
